Sustainable Accessible Future Environments

T 1.2

Social media

SAFE

SUSTAINABLE, ACCESSIBLE FUTURE ENVIRONMENTS

The course is a collaboration between five European Universities

UNIVERSITY OF LJUBLJANA (UL)
LAUREA-AMMATTIKORKEAKOULU OY (LAUREA)
FACHHOCHSCHULE KIEL (Kiel UAS)
UNIVERSIDAD DE GRANADA (UGR) and
WYŻSZA SZKOŁA GOSPODARKI Z SIEDZIBĄ W BYDGOSZCZ UCZELNIA NIEPAŃSTWOWA (WSG)

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

T1.2 Social media

DISSEMINATION OF THE SAFE PROJECT

The safe project is being disseminated through different means:

1. SOCIAL MEDIA ACTIVITIES

Throughout its implementation, the SAFE project communicated and disseminated its activities via social media platforms. This approach was not only consistent with the commitments outlined in the project funding application but also stemmed from the need to share information with various target groups, including students, university staff, local partners, media outlets, non-governmental organizations, local authorities, and others. SAFE communicated its activities through three social media platforms:

- **Facebook:** <https://www.facebook.com/urbanityforall>
- **Instagram:** <https://www.instagram.com/urbanityforall>
- **LinkedIn:** <https://www.linkedin.com/in/safe-sustainable-accessible-future-environments-12588a260/>

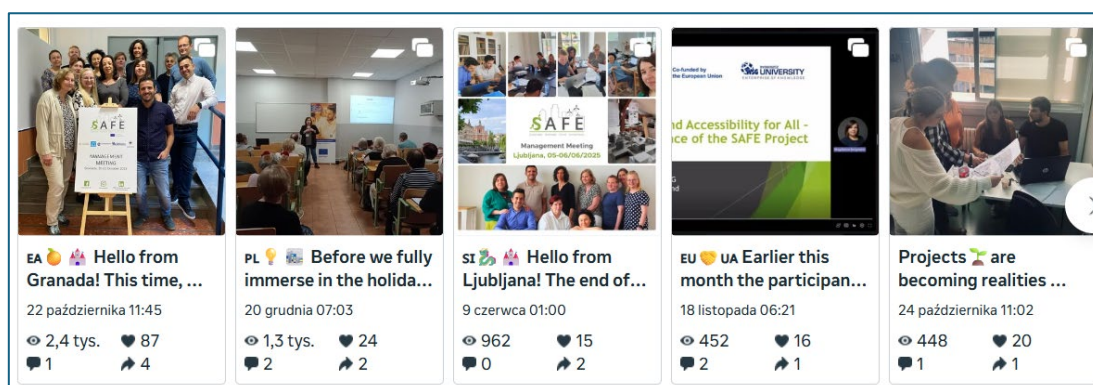

For Facebook and Instagram, the partners jointly agreed that the profile should have a more universal and inclusive name, one that would be associated not only with the technical aspects of the project but also with its broader vision, while allowing for the dissemination of potential information about the project's continuation after its completion. For this purpose, the slogan "Urbanity For All" was selected.

As of 25 November 2025, the above social media accounts have generated the following usage statistics since the start of the project:

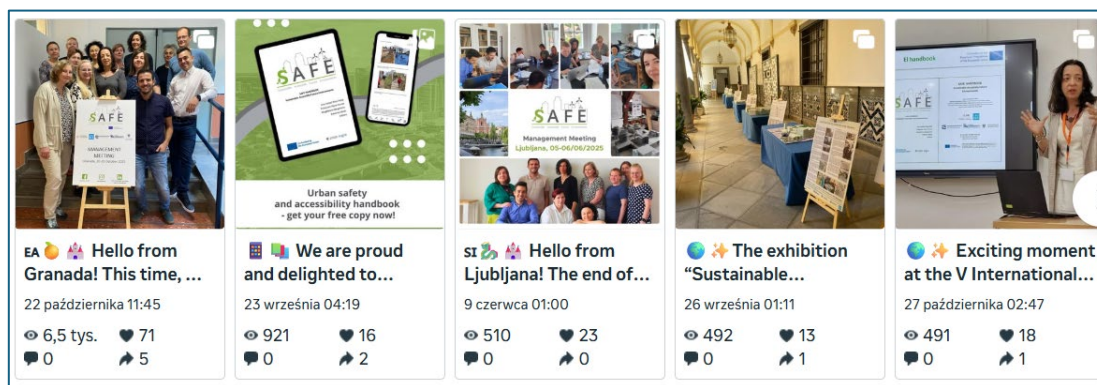

- **Facebook:**
 - followers: 40
 - posts/reels: 57
 - total reach: 9033 accounts
 - views per year: 7200
- **Instagram:**
 - followers: 91
 - posts: 64
 - total reach: 4093 accounts
 - views per year: 12700
- **LinkedIn:**
 - followers: 97
 - posts: 37
 - total reach: 1360 members
 - impressions per year: 5836

Content was published on the project's social media profiles in various formats, including posts, videos/reels, and stories. These materials covered the project's key events, such as the Intensive Study Programs held in partner countries (five editions), partnership meetings, project dissemination events, workshops for the local community, as well as the release of publications and other project outputs. All information was published in English, the official and shared language of the consortium. On behalf of the consortium, WSG (Magdalena Bergmann), UGR (Francisco Peco Torres), and UL (Aleš Švigelj) were responsible for updating the social media content. The team also produced photographs and graphics used in the posts.

Viewing statistics for “top 5” most popular posts on Facebook throughout the entire project varied from 450 to almost 2500 views:

Respectively, for Instagram the statistics varied from 500 to 6500 views:

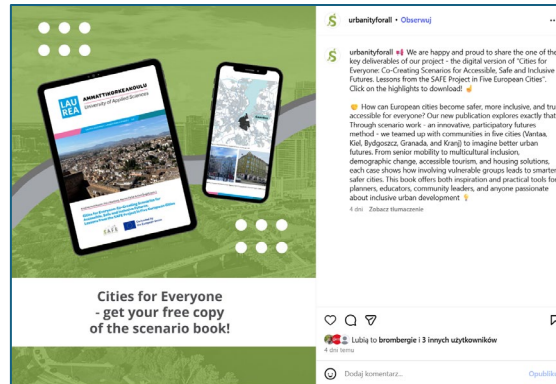

The project partners decided that, after the completion of project activities, the social media accounts would continue to serve as platforms for sharing information regarding the further continuation and dissemination of SAFE results.

Below are selected examples of materials published on the project's social media channels:

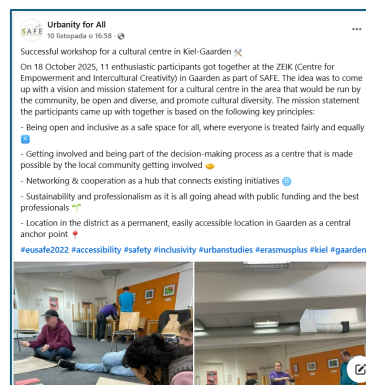

Announcement of the project book release (Instagram, 2025)

4. SAFE WEBSITE

The SAFE Project website (<https://eusafe.fa.uni-lj.si/>) is the main means of dissemination of the project. It contains information about the universities and associated partners involved in the project, as well as the activities carried out throughout its duration. In addition to providing structured and regularly updated content, the website also enables interaction with the wider public. Since its launch, the website has received a total of **104 comments**, reflecting interest and engagement from visitors.

The website also includes **Activities** section, where all project tasks, outputs, and events are systematically published. This section serves as a transparent archive of the project's progress and outcomes. Furthermore, the platform hosts an **online learning community**, open to any visitor who wishes to join. This community supports knowledge exchange, promotes collaboration, and extends the project's impact beyond the consortium.

Below are several examples of comments left by random visitors and users, collected through the WordPress platform, which illustrate the reception of the project and the involvement of its audience.

☐	 zemljista prodaja prodaja.org/nekretnine/zemljista ana.kraljevic@gmail.com 87.123.242.26	I just finished reading this from top to bottom and I'm blown away by how comprehensive it is! You didn't leave any stone unturned, and I appreciate that you addressed even the smaller details that other articles often skip over. The formatting also makes it really easy to scan and find specific information, which is super helpful for someone like me who likes to reference articles multiple times. Fantastic job on creating such a valuable resource!	Hello world! View Post  1  104	2025/11/15 at 6:45 pm

☐  seo experte bamberg seoexpertebamberg.de stanley_atque@gmail.com 81.199.26.106	Great article, thank you for sharing these insights! I've tested many methods for building backlinks, and what really worked for me was using AI-powered automation. With us, we can scale link building in a safe and efficient way. It's amazing to see how much time this saves compared to manual outreach. https://seoexpertebamberg.de/	Hello world! View Post  	2025/10/21 at 7:42 pm
